About

Heaps & Woods is a furniture manufacturer founded by Marta Jurado and Louis Chagnaud.

We are a creative furniture brand and studio specializing in designing and manufacturing unique furniture pieces. Our core values revolve around conserving, investing, and evolving the artisanal way of doing things and celebrating craftsmanship. We are committed to preserving traditional techniques and investing in them ethically and sustainably. We specialize in natural materials and exotic woods such as Teakwood, Suar and Rosewood, along with handcrafted rattan and loom pieces created in our ateliers in Indonesia and Europe.

While we have our own collection that showcases our capabilities, we also have the flexibility and expertise to fulfill custom orders. This is why we collaborate on various projects such as hotels, restaurants, and private residences. Our ultimate goal is to provide high-quality, handcrafted designs made with natural materials, ensuring a harmonious blend of aesthetics, functionality, and sustainability.

Heirloom Collection

It's the furniture you pass down to your children, who offer it to your grandchildren. It's the furniture that moves from room to room and home to home. It weathers life's parties and survives its messes. It gets better as it gets older.

With this collection, Heaps & Woods introduces new materials such as Indonesian rosewood and creamy travertine, alongside our signature recycled teak wood and natural rattan. Bold, geometric shapes pair with softer, organic structures to bring harmony and elegance to a space.

Name

Curvy Dining Chair

The Curvy Dining Chair features an organic geometric shape on the back, crafted from two solid pieces of wood hand-sculpted to perfection. Designed to be timeless, it merges contemporary design with a refined aesthetic. Its fluid lines and elegant geometric structure give it a sculptural presence, with curved forms and meticulous construction. Striking a balance between simplicity and sophistication, the backrest evokes a sense of movement, making it a focal point and standout piece in any space.

Frank Pendant Lamp

The Frank Lamp is a handwoven ceiling lamp crafted from natural rattan. Taking reference from revolutionary architects such as Gehry, Frank looks to Japanese origami art as an inspiration for its distinct geometric structure. An interesting feature of this design is that whatever direction it's observed from, it will always appear differently, due to the non-symmetrical construction technique applied. This results in unexpected shadows when the light is turned on. Frank is available in two sizes in order to complement a variety of spaces.

Aurelia Pendant Lamp

The Aurelia Pendant Lamp is handwoven with natural rattan into a smooth undulating pendant. The structure of Aurelia is reminiscent of 60s interiors and combines with the organic material for a playful lightness. In mind when designing this lamp, were the dancing shadows waiting to appear once the sun goes down and the lights are turned on.
